EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Pursuant to MPEP 606.01 the **Title** is changed to read:

**-- SYSTEM AND METHOD FOR SHARING, MAPPING, TRANSFORMING DATA
BETWEEN RELATIONAL AND HIERARCHICAL DATABASES--**

Reasons for allowable subject matter

The present application has been thoroughly reviewed, applicant's submission of response under 37 CFR 1.111 on 8/10/2004, is persuasive [see page 5-19]. Upon searching a variety of databases, the examiner submits that claims 1-5,7,9,11-22,24-26,28,30 and 32-34 [re-numbered as: 1-27] allowable in light of the applicant argument and in light of the prior art made of record.

Prior art Sacks, US Patent No. 5974407 either singularly or in combination, fail to anticipate or render obvious the recited feature *"for each compound element, specifying a data source, specifying a database command, executing the database command, receiving database field names from the relational database, and adding the database field names to the compound element"* in Claim 1,18,24,32 These features together with the other limitations of the independent Claims are novel and non-obvious over the prior art of record. The dependent Claims 2-5,7,9,11-17,19-22,25-26,28,30,33-34 being definite, enabled by the specifications, and further limiting to the independent Claim, are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
